

# The Venture Credit Solutions Difference

## No Hidden Fees or Ongoing Charges; Only Pay for Results

We only get paid for success, so we move fast. We're committed to removing as much erroneous information from your credit report as possible.

## Fast Results! 60-Days Or Less

Most clients see positive results in 60 days or less. Plus, we set a 6-month limit. If we don't reach our contracted goals by then, you don't pay.

## Personal Credit Advisor

While a credit score may just be a number, you are never a number to us. You get a friendly, personal advisor that will work with you every step of the way.

## U.S. Company

We're a U.S. company with all of our advisors and support based right in the Northeast.

## Highest Standards

We're licensed, bonded, and insured and committed to upholding the highest industry standards. Our goal is to build a trusted relationship with you -- delivering 100% client satisfaction.

## DEDICATED TEAM OF CREDIT REPAIR EXPERTS

Venture Credit Solutions are trusted experts with a proven track record of helping people rebuild their credit.

We believe in relationships because repairing credit is just the start. We skip the "hard sell," never make promises we can't keep and only get paid after delivering results (typically, 60 days or less). Our value lies in our expertise, honesty and legendary customer service.

Fully staffed here in the US, Venture Credit Solutions is licensed, bonded and insured, and committed to the highest legal standards. We support numerous causes, including veterans and St. Jude's Children's Research Hospital.
